

# Moving Target

## Zeroes

Practice makes perfect sense  
But I never thought anything of it  
Love was a hit or miss  
And I couldn't tell the difference Build them up just to shoot them down  
Hide your weapons when they come around  
Throw their hearts back to the sea  
Watch them sink And just when the game was lost  
And all of the coins were tossed  
My aim became locked On a moving target  
A moving target  
You're a moving target  
Bull's-eye  
Shot in the darkness  
On the first try Emptiness fills the room  
Shadows dressed in black and blue  
Morning light creeps through  
Washes over the wounds Point your finger into the crowd  
Hear the laughter as you go down  
Heart is trampled beneath their feet  
Watch it bleed And just when the game was lost  
And all of the coins were tossed  
My aim became locked On a moving target  
A moving target  
You're a moving target  
Bull's-eye  
Shot in the darkness  
On the first try  
(moving target) You're a moving target  
Bull's-eye  
Shot in the darkness  
On the first try  
Moving target  
Bull's-eye  
Shot in the darkness  
On the first try
