Anthem

Zebrahead

I got a girlfriend, only she don't know it yet
I got a six string best friend, who sleeps with a broken neck
I want to make my mark, change the world with this flow
But, all this doubt in my head, it won't let me goCan't you see I want to lock my door
And shut out all the world surrounding me?
Safe from the problems and the pressures caused by insecuritiesGet up, get up, let the good times roll
Get up, get up, take my heart and my soul
Get up, get up, let the good times roll
On and on and on and on and onFeel like everybody else just needs to see through different eyes
From the outside looking in, we shout the anthem of our lives
(Come on and let me go)Just like everybody else, I feel the pain each time I try
But I'll fight the bitter end to shout the anthem
The anthem of our lives, the anthem of our livesI got a heartache, she's my insecurity
I got all these on my tongue but they escape me
I want to breakout, carpe diem
I know, but all this doubt in my head, it won't let me goCan't you see I want to find my own direction
On this busy one-way street?
Where all the influential people never bother helping meGet up, get up, let the good times roll
Get up, get up, take my heart and my soul
Get up, get up, let the good times roll
On and on and on and on and onFeel like everybody else just needs to see through different eyes
From the outside looking in, we shout the anthem of our lives
(Come on and let me go)Just like everybody else, I feel the pain each time I try
But I'll fight the bitter end to shout the anthem
The anthem of our lives, the anthem of our livesThis is the anthem out to all the misfits
If you feel you don't belong, if you don't give a shit
About authority, about majority, about conformity
Shout it out, let us go, let us go, let us go, let us go
Let us go, let us go, let us goGet up, get up, let the good times rollEverybody else just needs to see through different eyes
From the outside looking in, we shout the anthem of our lives
Just like everybody else, I feel the pain each time I try
But I'll fight the bitter end to shout the anthem of our lives(Come on and let me go)
Feel like everybody else just needs to see through different eyes
From the outside looking in, we shout the anthem of our lives
(Come on and let me go)Just like everybody else, I feel the pain each time I try
But I'll fight the bitter end to shout the anthem
The anthem of our lives, the anthem, the anthem of our lives
The anthem of our lives
