

Happy In The Meantime

Lit

It's just another reason why
It all comes down to you and I
Just have another drink
Waste some time with me
We're happy in the meantimeI've gotta make up for losin' time
'Cause I've been spinnin' my wheels all night
And I can't wait
Can't hardly wait to see you
Things seem better off now
I think I'm better off nowIt's just another reason why
It all comes down to you and I
Just have another drink
Waste some time with me
We're happy in the meantimeI guess the rain's gonna follow me
'Cause it's been droppin' in minor D
And I can't wait
Can't hardly wait to see if
Things are better off now
I think I'm better off nowIt's just another reason why
It all comes down to you and I
Just have another drink
Waste some time with me
We're happy in the meantime
We're happy in the meantimeWell save a little rain
And wash away the pain
I'll try and keep it clean
I'll show you what I mean
I don't wanna keep you holdin' on
'Cause in the morning I'll be gone, so longJust have another drink
Waste some time with me
We're happy in the meantimeIt's just another reason why
It all comes down to you and I
Just have another drink
Waste some time with me
We're happy in the meantime
We're happy in the meantime
Happy in the meantime
