

# Pass Me By

## We Are the Ocean

Falling through the roof, I should've been more careful  
That I'll be hanging on the wire  
Taking these mistakes to keeping me awake  
And now my eyes are getting tired  
I sometimes feel like we all think the same  
But is this say well everything I change [?]Sliding tender wall  
Never fell like this before  
It's been a hell of a day so take me awayBecause I've been a fool for the first time  
I thought that everything was fine  
Well I guess I'm paying for my crimes  
But I'm still trying  
To keep my cool in the meantime  
Even though this mountain's hard to climb  
I won't let this world pass me by,  
I won't let it pass me by  
I think I know a good place  
Where I can get my head [?]  
Out here in the open space  
Where I can see with my own eyes  
I finally realize the sun's gonna always rise  
It's not as it like [?] just takes the pace  
And keep on runningTake me in to the lies,  
Show me things that would change my life  
It's been a hell of day so take me awayBecause I've been a fool for the first time  
I thought that everything was fine  
Well I guess I'm paying for my crimes  
But I'm still trying  
To keep my cool in the meantime  
Even though this mountain's hard to climb  
I won't let this world pass me by,  
I won't let it pass me by  
I hope that someday we will all be in together  
When the time is changing I'm gonna make all this better  
If I have get ready for every time  
Yes I know [?]Because I've been a fool for the first time  
I thought that everything was fine  
Well I guess I'm paying for my crimes  
But I'm still trying  
To keep my cool in the meantime

Even though this mountain's hard to climb  
I won't let this world pass me by,  
I won't let it pass me by No one let it me pass me by  
Even though this mountain's hard to climb  
No one let it me pass me by  
No one let it me pass me by
