

I Can't Save You

Cub Sport

Didn't wanna start a fire, didn't wanna start a thing beyond desire
Didn't wanna wind you up, didn't wanna talk it up and be a liar
Words change everything, you changed everything with words again, again
Words change everything, you changed everything with words again, again I can't save you (I can't save you)
Even though I want to, baby
I can't save you (I can't save you)
Even though I want to baby Only see you in the night, only fleeting moments where we feel alright
And you're all I'm seeing now, and you know I never smoke except for now
Words change everything, you changed everything with words again, again
Words change everything, you changed everything with words again, again I can't save you (I can't save you)
Even though I want to, baby
I can't save you (I can't save you)
Even though I want to baby Enough's happened tonight, why deny ourselves another light
I say, I'm never gonna lose control but when I'm with you I think I might
Enough's happened tonight, why deny ourselves another light
I say, I'm never gonna lose control but when I'm with you I think I might I can't save you (I can't save you)
Even though I want to, baby
I can't save you (I can't save you)
Even though I want to baby
