

Pharcyde

The Pharcyde

[Imani]

"None of that's true"

We do it not you

That' why I got you

Stuck on

To my style like glue!

The crew

Definitely is back again

But I'm back to win

So just tell a friend

That I'm still

Twisting and bending

Minds and rhymes until the very end

With the rhymes

And the loops

Stomping out wack troops

In my big black boots

Collecting respect and the loot!

From the way I grab the microphone

And execute, "iahp's" think I'm cute

[Bootie Brown]

(Say what?)

Yo man, I pay them no

Attention I stay deep into

The cut cause I leave the

Tricks alone cause my name

Is not David Copper-Filled

Pockets, never net a man

Who don't hate it

So let it be stated

Niggas couldn't fade it with an

Edit,

And Xerox M.C.'s

Are pathetic, they tryin' to

Duplicate but their comin'

Out synthetic

The name is Bootie Brown and phony M.C.'s forget

It.

[Chorus: x2]

Imani Bootie Brown Fatlip and Slimkid Tre
Imani Bootie Brown Fatlip and Slimkid Tre
Imani Bootie Brown Fatlip and Slimkid Tre

We do it this way

We do it this way

[Fatlip]

I step toward the MIC grinnin'
The lyrical imperial award winnin'
Rhymes like a balloon that got a pin in it
Because my shit be poppin'
Like gin and juice I seduce these iahps to get
Loose
When I'm droppin'
These rhymes on drums
Like my nigga Def Jef
My style is more unknown than what happens
After death
I come fresh like your breath after your brush
Wack MC's like that orange soda got crushed

[Slim Kid3]

Well it's apparent that many
Are so transparent you
Can't believe ya eyes when
Ya starin it's ghostly and
Mostly the wise who
Yeah they just run these games
Before ya eyes to tell you
Lies framed in gold glitter
For many moons I've been
A go getter took miles of
Manure from the purest bullshitters
Now them mutha fuckas ain't wit us
To get us
M-walk shake the cut through their
Neutro-transmitter

[Chorus: x2]

[Imani]

You must respect me

Because I come directly from my internal
While my eternal
Infernos steadily towering
And over-powering
All sour sounding wishin' wishy-washy
Competition
Definitely wack and lackin'
And stable ammunition
Change ya mission
Men and listen
My way your salutations
Get no validations
Just rejections and ejections
Outta my Hitachi

[Slim Kid3]

Come on and taste the real
Step on inside and confide
In the feel I reside
By steel waters just a gear
On the wheel no fear on
The steel just a son of Jiva
Who won't leave my field
