PVC Chair

Demented Are Go!

Ended up in a stranglehold on a PVC chair too young to realise too young to care

Ended up in a stranglehold on a pvc chair too young to realise too young to care
Chased me round the garden with a wooden pole too young to realise too young to know

We used to fight day and night
We used to hate each others sight
Nothing was said nothing was done
Too young

Ended up in a stranglehold on a pvc chair too young to realise too young to care
Chased me round the garden with a wooden pole too young to realise too young to know

Wooden blocks flying down the stairs
Boiling white face and fuzzy hair
We used to fight day and night
We used to hate each others sight
Nothing was said nothing was done
Too young

Ended up in a stranglehold on a pvc chair too young to realise too young to care
We used to fight day and night
We used to hate each others sight
Nothing was said nothing was done
Oh too young
