Carpe Diem (feat. Ro Ze)

Retro Pak

Another night is listening
in other words
I should say there are no words
You should say there are no words (2x)

Are we blind to the fact that sometimes
that I see me wonder waking up
In new day's wing got and call my number
Everyday is a new one
so we just party like our last
We just chillen drinking tellin' jokes
Until we dis out
Eatin' with family crash
miss the ones we lost in the past
Living so fast if I'm slow
I might hit the dash
Kids want to be grown and
Begging to be on their own
Single mothers fathers ya
Please stay strong
I remember family reunions
My first communions those are days
Chilled with my brother in the park
Where we played
Playing saga on my bed
before I was a kid
What more can I ask for
Act up in school
Watch my mother take me
on a crash course
But now I got my own kids
My own dreams
Sometimes I wish that
I can pause the scene
Cherish every moment in between
Enjoy life is one of my fast were
Only humans make mistakes
But remember, just set it straight

Because

Another night is listening
in other words
I should say there are no words
You should say there are no words(2x)

Let's get back to the world
That we just livin daily struggles
Got me wanting giving in
I might want to do something right
Something relavent
Days come and go
When I'm feeling held down
Heaven sit, no time to getting hit
Because we gotta pay the rent
So we live and die to see the check
Hot days and cold night
we working to break our necks
But we have to live for the moment
Taken day by day and season
Only time, who wants to be owed
It's only it
Stiches on your bill
So you don't go hungry
But where do we go from here
This roller coaster ride
When wheater interfered just
Keep your head up and
Keep your face
With every dark night
There is a brighter day
But we all have our own struggles
And our own dreams
And south we should
Pause the scene
Cherish every moment in between
We only humans
We make mistakes
And please remember
That we have to
Set it straight

Another night is listening
in other words

I should say there are no words
You should say there are no words (4x)
