Computer Guy

Savlonic

Have you seen him, he's from the future
He's got a really big computer
And he uses it, uses it every day
And he uses it, uses it every way
What's he use it for? You know I'm not that sure
'Cos it uses future technology
But this I do know, It's a hit with the ladies

And He'll twist you round.
You know he'll turn your head
Can't fight this urge to turn towards him
Oh no no.

He's the ultra-modern operator
Makes our machines look like calculators

He's adding, subtracting
He's also dividing us, us, us
He divides us and he puts himself in between

And He'll twist you round.
You know he'll turn your head
Can't fight this urge to turn towards him
Oh no no.

And He'll twist you round.
You know he'll turn your head
Can't fight this urge to turn towards him
Oh no no.

I don't know what to do any more
He say he knows what we're gonna do before we do it
Using information from his database

He says I'm gonna fall in love with him
But I'm telling you I'm not in love with him
I'm not feeling, feeling anything
I'm not feeling, feeling anything

And He'll twist you round.

You know he'll turn your head
Can't fight this urge to turn towards him
Oh no no.

And He'll twist you round.
You know he'll turn your head
Can't fight this urge to turn towards him
Oh no no.
