

# Computer Guy

## Savlonic

Have you seen him, he's from the future  
He's got a really big computer  
And he uses it, uses it every day  
And he uses it, uses it every way  
What's he use it for? You know I'm not that sure  
'Cos it uses future technology  
But this I do know, It's a hit with the ladies

And He'll twist you round.  
You know he'll turn your head  
Can't fight this urge to turn towards him  
Oh no no.

He's the ultra-modern operator  
Makes our machines look like calculators

He's adding, subtracting  
He's also dividing us, us, us  
He divides us and he puts himself in between

And He'll twist you round.  
You know he'll turn your head  
Can't fight this urge to turn towards him  
Oh no no.

And He'll twist you round.  
You know he'll turn your head  
Can't fight this urge to turn towards him  
Oh no no.

I don't know what to do any more  
He say he knows what we're gonna do before we do it  
Using information from his database

He says I'm gonna fall in love with him  
But I'm telling you I'm not in love with him  
I'm not feeling, feeling anything  
I'm not feeling, feeling anything

And He'll twist you round.

You know he'll turn your head  
Can't fight this urge to turn towards him  
Oh no no.

And He'll twist you round.  
You know he'll turn your head  
Can't fight this urge to turn towards him  
Oh no no.
