

# I Can't Quit Her

## Blood, Sweat & Tears

I can't quit her  
She's got a hold on me  
She got her hand on my soul  
I can't quit her  
'Cause I see her face everywhere I go In the city streets, in the country fields  
In the back of my mind, I know it can't be real  
For a woman to possess all the tenderness she had But the hands of time  
Keep tickin' on my back  
'Cause it's been so long  
Since I had her back beside me  
Yeah, I know I can't quit her  
'Cause in my darkest night  
She comes on like a light  
I can't quite her  
Try as I may, with all my might She had a woman's touch, a young girl's eyes  
And in seconds flat, I was proselytized  
Turned around and made to feel sweet love But the hands of time  
Keep tickin' on my back  
'Cause it's been so long  
Since I had her back beside me  
Yeah, yeah True love is somethin' ev'ry young boy knows about  
And he fights his whole soul all the best to find some  
I was a young boy 'till I held her in my arms  
Now I find that I'm strung out behind some, hey I can't quit her  
She got her hand on me  
She got a hold on my soul  
I can't quit her  
'Cause I see her face everywhere I go  
I can't quit her  
Woo, ooh, yeah, I know You know, I see her face everywhere I go  
I need her, I need the little girl
