

(All I Wanted Was) Danger

The Milk

There once was a day when I was so downhearted
I was so deep down I started to hit the floor
And on that day yeah I just couldn't get started
So the the doctor said I shouldn't do that no more

When all I wanted to be was in danger
And all I needed to feel was a little bit more
So what do I need a beautiful moment
That fleets and winds then reminds me that life ain't so fair

Life ain't so fair yeah yeah
All I wanted was some danger
All I needed was some danger

If life's a bullet you'd better get up and bite it
My head was heavy I nearly fell through the floor
I was diggin' a hole in my mind and I really didn't like it
So the doctor said I shouldn't do that no more

When all I wanted to be was in danger
All I needed to feel was a little bit more
So what do I need a beautiful moment
That fleets and winds then reminds me that life ain't so fair

Life ain't so fair yeah yeah
All I wanted was some danger
All I needed was some danger

Yeah it fleets and unwinds then reminds me
That the pain is oh so frightening
All I wanted was some danger
All I needed was some danger

Cause all I wanted to be was in danger
And all I needed to feel was a little bit more
So what do I need a beautiful moment
That fleets and winds then reminds me that life ain't so fair

Life ain't so fair yeah yeah
All I wanted was danger

All I needed was danger

All I wanted was danger

All I needed was danger
