

Heart

Modern English

Here's the news for the special day
He's lost his love the warm feeling has gone away
It leaves him colder than the night
No rhyme or reasoning will help tonight And though he's staring at the wall again

He knows that it's not over
Heart in him, he'll feel it
Heart in him, he'll need it

To find the words to say when love comes 'round again Something stirred in his heart today
Felt the need to hold her in his arms again
It seems to make no sense at all

Just when the ice was melting And though he's staring at the wall again
He knows it's far from over
Heart in him, he'll feel it
Heart in him, he'll need it

To find the words to say when love comes 'round again Love is all that, love is all that we deserve
Love is all that, love is all that we deserve
Love is all that, love is all that we deserve
Love is all that, love is all that we deserve They necked and talked all night
Candlelight and accusations

Mistakes, misunderstandings, stupid human failures
It doesn't matter when you're bored with love And though he's feeling rather small again
He knows that it's far from over
He's not just leaning on that wall again
This time he'll push it over Heart in him, he'll feel it
Heart in him, he'll need it

To find the words to say when love comes 'round again
Ohh, heart in him, he'll feel it
Heart in him, he'll need it

To find the words to say when love comes 'round again Love is all that we deserve
Love comes around, around, around, around, around
Love is all that we deserve
Love comes around, around, around, around, around Love is all that we deserve
Love comes around, around, around, around, around
Love is all that we deserve
Love comes around, around, around, around, around Love is all that we deserve
Love comes around, around, around, around, around
Love is all that we deserve
Love comes around, around, around, around, around
