

# Leon and the Game of Skin

## Local H

In all those games you played  
To bend the world your way  
It's over, it's over  
Leon, it's overAnother time to take  
Another narrative shaped  
It's over, it's over  
Leon, it's overIt's over, it's over  
Leon, it's overWhen the bodies beware  
The cellars don't care  
The sun burns in the tower  
The unquenchable thirst  
Of who was here first  
The richest doubt will cower  
So where's your skin in the game?Leon leaves the light on  
And Leon takes the pain  
And what we all decide on  
Is one more baby betrayed  
And Leon leaves the problem  
Says where your skin in the game?  
In the game  
In the gameAnd now you're back to one  
No worse than what you've done  
It's over, it's over  
Leon, it's over  
Another run at stake  
Another fault degrades  
It's over, it's over  
Leon, it's over  
It's over, it's over  
It's over, it's overWhile they're faking a rage  
While they disengage  
There's pipers in the powersThe lorry fruit  
We all follow suit  
To hover in the power  
And where's your skin in the game  
And Leon leaves the light on  
Leon makes the trade  
What we all decide on  
Is one more baby betrayed

And Leon leaves tomorrow  
So where's your skin in the game?  
In the game  
In the game Leon leaves the light on  
And Leon takes the bait  
And what we all decide on  
Is one more baby betrayed  
And Leon leaves to follow  
So where's your skin in the game?  
And Leon leaves tomorrow  
So where's your skin in the game?  
And we all leave the light on  
And we all make the trade  
What we can't decide on  
Is one more baby betrayed  
And we all leave tomorrow  
So where's your skin in the game?  
In the game  
In the game
