

# Don't Go

Calvin Richardson

I love this song. I listened to it and wrote down the words. I might have a few incorrect. However, sing along with it and make changes as needed. Good luck!

Dont Go

Calvin Richardson

(Speaking)

In the mist of the pouring rain  
All malekeum misfits of the atmosphere are purified  
Like all the hurt and pains of life strains  
Are removed from the body of a beautiful woman  
Through every tear held back that she dont cry  
Your eyes like heavens windowpane  
With the strength of an athlete  
With a touch so gently  
Brought mighty mighty Hercules to his knees  
God told Adams no  
Eve made him say; yes, yes  
Her smell so sweet  
Her body waves so unique  
Makes a man complete  
Surely Ill eat for just one more taste of your nectar  
Please dont leave

Verse

Whats the problem now girl  
Thought you said youd be with me from now  
Through thick and thin  
And I took your word girl  
Are you contemplating leaving me (say no) aah no  
Your love is like the petals of a rose (dont go)  
Insecurities get the hell away from me (yea, yeah) pleaseeeee (dont go)

Chorus

I just wanna praise you  
Let me take you to Jamaica girl (dont go) just dont go  
I hope these feelings are contagious  
Thank God everyday he made you girl (just dont go)  
My world would be incomplete babe  
If he took you from me baby (dont go)  
No, no, nooo (umm hum)

Verse

Ill do anything to see you smile (ooh ooh)

Sunday morning Ill be  
Making silly faces up in church  
Till the preacher kicks me out (just to see you smile)  
Guess what Im trying to say is  
Ill be a clown (woo huh)  
So you dont ever have to think about our love  
Baby you can trust  
When everything around us falls down  
Standing it is us  
Still love (na na na na)  
Chorus  
I just wanna praise you  
Let me take you to Jamaica girl (dont go) just dont go  
I hope these feelings are contagious  
Thank God everyday he made you girl (dont go) dont go  
My life would be incomplete babe  
If he took you from me baby (dont go) dont go  
No, no, nooo (umm hum)  
I just wanna praise you  
Let me take you to Jamaica girl (dont go) just dont go  
I hope these feelings are contagious  
Thank God everyday he made you girl (dont go) dont go  
My world would be incomplete babe  
If he took you from me baby (dont go) dont go  
No, no, nooo (umm hum)
