Suddenly November Morning

Well it seems like the wind has Changed my mind changed

Seems like years ago, yeah seems like years ago

Since I felt the +warmth of all the other sides+

Lately things seems a little colder, the wind sings and get a little bolder and i have it on the run.

But then again, its all in my mind, ever since, I left that girl of mine. aAaAaAaAa aAaAaAaAa

Every day it seems like November everyday seems like,

Seems like November everyday seems like November morning.

Wasn't to long ago seems like years ago since I felt the warmth of all the other sides lately things been a lil bolder the wind sings and get a little colder, I have a feeling theres worse to come. But then again it may just be in my mind ever since u gathered all ur doorway? aAaAeE

Well im drifting, in a sea of golden teardrops

And the lifeboat sailing for land
