

Bad Rain

Four Star Mary

Cut my heart at the seams
live a life of shattered dreams
It's not so hard for meIf your lost you'll be found
When the sky starts coming down
Lets go undergroundCause there's a bad rain
Beating out the window again
There's a bad rain, bad rainLove that song in my head
Where the rain is pouring red
Give me that insteadMornings that are gonna shine
Heavens that are always blue skies
Go away, go Away, go awayCause there's a bad rain
Beating out the window again
There's a bad rain, bad rainNotices when to fall in the Spring
There's so much more that seems
A broken rainI don't want to feel the curse
I don't want to heal the worst things that I know
That I know, that I knowWhen there's a bad rain
Beating out the window again
There's a bad rain, bad rainBad Rain
Beating out the window again
There's a bad rain, bad rainI don't want to feel the curse
I don't want to heal the worst things that I know
That I know, bad rain
