Crack File

Addiction Crew

Think you're about to forget what you do remember now
Pray just another style to express
Reach out for a brand new connection to crack the file you miss
Please don't tell me, don't wanna listen toYour problem's not so big
But you know what a real problem is?
But you know whatYou keep on fillin' my head with your bullshit
Get the fuck out my way
Pray just another style to regret
Shut up, like I don't know like you don't know
You feel so fuckin' bored
Please don't tell me, don't wanna listen toYour problem's not so big
But you know what a real problem is?
But you know
Turn around your head and realizeAre you feeling so much better than I know?
What I used to know in my whole damn life
Just a fair affair, get down for me
Breathing out, cannot blow your shell away
What I used to need, all I used to need, a crack file for your lifeThink you're about to re-load now
You've just got one more chance
Pray just another style to express
Reach out for a brand new connection to crack the file you miss
Please don't tell me, don't wanna listen toYour problem's not so big
But you know what a real problem is?
But you know what
Turn around your head and realizeAre you feeling so much better than I know?
What I used to know in my whole damn life
Just a fair affair, get down for me
Breathing out, cannot blow your shell away
What I used to need, all I used to need, a crack file for your lifeTake me inside
Take me outside
Take me inside
BreakTurn around your head and realizeAre you feeling so much better than I know?
What I used to know in my whole damn life
Just a fair affair, get down for me
Breathing out, cannot blow your shell away
What I used to need, all I used to need, a crack file for your life
Get down for
