

# Takin' It Easy (Re-Recorded)

[Lacy J. Dalton](#)

I wanna go where the warm winds blow me  
I just wanna ea-ease my mind  
I wanna run through the sand and the sun  
Leavin' it all behind  
Watch that ol' moon risin' on the horizon  
Turnin' from gold to blue-ue  
It's just makin' it easy for takin' it easy with you Somewhere far away those night birds call my name  
I can hear them singing love songs just for me-ee and you-ou  
For a million summer nights this dream has been the same  
Its just you and me and the stars and the sand and the sea Well I wanna go where the warm winds blow me  
I just wanna ea-ease my mind  
I wanna run through the sand and the sun  
Leavin' it all behind  
Watch that ol' moon risin' on the horizon  
Turnin' from gold to blue-ue  
Ooh, it's just makin' it easy for takin' it easy with you Every time I look into your emerald eyes  
I just want to take you far away  
'Cause I know you deserve to live in paradise  
And babe you know I'll get you there someday 'Cause I wanna go where the warm winds blow me  
I just wanna ea-ease my mind  
I wanna run through the sand and the sun  
Leavin' it all behind  
Watch that ol' moon risin' on the horizon  
Turnin' from gold to blue-ue  
It's just makin' it easy for takin' it easy with you Well I wanna go where the warm winds blow me  
I just wanna ea-ease my mind  
I wanna run through the sand and the sun  
Leavin' it all behind [fade]
