When the Rain Begins to Fall

Against All Authority

Why do you see us as a threat? We're only helping those that you Forget or maybe you haven't forgotten The needy at all but their votes Just don't add up so the don't amount To much at all your political agenda has managed To fail us all and if we organize Shut us up and shut us down We'll fight you in your courts and You can't shut us down Ourselves the police will get involved We'll fight you in your halls You can attack food not bombs Long before you'll have to answer We'll fight you 'til you fuckin' fall! You can attack ABC but it won't be To us all because you're the scum When the rain begins to fall That's washed off the streets
