

# Stardust In My Eyes

Namie Amuro

Some days  
As the light fades  
It all blacks out  
Wake up  
In the morning  
And the sun goes down  
What do you do  
You crash into the fear  
Only you  
Can pull me out the dark  
And as we collide  
It's like colors shoot across the sky  
Bring me to life  
Feels like stardust in my eyes  
One touch and we disappear  
Take me up to the stratosphere  
Your love  
Your light  
Feels like stardust in my eyes  
Stardust in my eyes  
Can we live here  
Can we die here  
Till the stars go out  
When you hold me  
I feel happy  
Don't wanna be earthbound  
It's what you do  
You crash into the fear  
Only you  
Can pull me out the dark  
And as we collide  
It's like colors shoot across the sky  
Bring me to life  
Feels like stardust in my eyes  
One touch and we disappear  
Take me up to the stratosphere  
Your love  
Your light  
Feels like stardust in my eyes  
Stardust in my eyes  
Tell me a way  
Stardust in my eyes  
Tell me a way, tell me a way  
Tell me a way, tell me a way  
And as we collide  
It's like colors shoot across the sky  
Bring me to life  
Feels like stardust in my eyes  
One touch and we disappear

Take me up to the stratosphere  
Your love  
Your light  
Feels like stardust in my eyes  
Stardust in my eyes Tell me a way  
Stardust in my eyes  
It's like stardust in my eyes
