Say Goodnight

This Beautiful Republic

I never thought it'd come so soon
I'd be with you inside this room
Heaven's taking you from me
Your hand grows weak, it's telling me it's time to leaveHelp me say goodnight, I won't say goodbye
Leave the light on, I'll be home in time
Help me say goodnight, I won't say goodbye
Leave the light on, I'll be home in timeHow can a granite stone symbolize
The kaleidoscope that was your life?
Your words will stay alive in me
My knees grow weak, the tears I leave are healing meHelp me say goodnight, I won't say goodbye
Leave the light on, I'll be home in time
Help me say goodnight, I won't say goodbye
Leave the light on, I'll be home in timeWell, I'll be home in time
I'll be home in timeHelp me say goodnight, I won't say goodbye
Leave the light on, I'll be home in time
Help me say goodnight
I'll be home in timeHelp me say goodnight
I won't say goodbye
(I'll be home)
Leave the light on
(I'll be home tonight)
I'll be home in time
(I'll be home in time)
