

# Say Goodnight

## This Beautiful Republic

I never thought it'd come so soon  
I'd be with you inside this room  
Heaven's taking you from me  
Your hand grows weak, it's telling me it's time to leave  
Help me say goodnight, I won't say goodbye  
Leave the light on, I'll be home in time  
Help me say goodnight, I won't say goodbye  
Leave the light on, I'll be home in time  
How can a granite stone symbolize  
The kaleidoscope that was your life?  
Your words will stay alive in me  
My knees grow weak, the tears I leave are healing me  
Help me say goodnight, I won't say goodbye  
Leave the light on, I'll be home in time  
Help me say goodnight, I won't say goodbye  
Leave the light on, I'll be home in time  
Well, I'll be home in time  
I'll be home in time  
Help me say goodnight, I won't say goodbye  
Leave the light on, I'll be home in time  
Help me say goodnight  
I'll be home in time  
Help me say goodnight  
I won't say goodbye  
(I'll be home)  
Leave the light on  
(I'll be home tonight)  
I'll be home in time  
(I'll be home in time)
