Dethroned Emperor

Celtic Frost

See the portal, gate to madness
Locked forever in the veil of shameDeny extraction, thirst for disgrace
Watch his break, the emperor is killed, yeah
Light of the day, shadows from beyond
Scaffold of steel, the throne has gone, goneDethroned emperor
Dethroned emperorThe foot of the stairs, dimension in might
The king sits, his eyes are glassGrowing of the small, the laughter's fall
Can you deny, remaining cries?
Descent of the Lords, into the trap
Existence and hate, unseen gateDethroned emperor
Dethroned emperor
