Until the Night Turns

Lord Huron

I had a vision tonight that the world was ending.
The sky was falling and time was bending.
I watched the heavens collide right before my eyes.What if the world dies / with the sunrise?
Baby it's all right we'll be up all night
What if we're unmade / when the stars fade?
Keep me going 'til the night turns into the day.I had a visitor come from the great beyond.
Telling me our time in the world is done,
and to watch for a sign in the midnight sky.What if the world dies / with the sunrise?
Baby it's all right we'll be up all night
What if we're unmade / when the stars fade?
Keep me going 'til the night turns into the day.We wait for the sunrise.
We watch as the world dies.
We howl in the moonlight.
When the World Ender comes, baby don't close your eyes.I had a vision tonight that the world was ending
Yeah the sky was falling and time was bending
We spent our last night in the moonlight
Baby it's so bright we'll be up all night.
I got a helluva view for the end of the world
I've got a bottle of booze and a beautiful girl.
If I'm a'Â-goin to die I'm gonna go in style.
