

Never See the Light

Devilskin

Friend of mine, 25, old
You left the world confused and alone
Your heart was here left with us
You wanted it back so the fight would arise

My talented one with fingers of gold
Sympathies arise, you cry no more

Gone from us while we live
Cos youâ€™ll never see the light we had to give
The world wonâ€™t be the same without you here
Cos youâ€™ll never see the light we had prepared.
