All Good Things

Sissel

If you ever would need someone
Then think of me
If you ever would need someone
Then think of me

Need you ever to love someone
Consider me
Will you ever know your lover cute's gone
So think of me

I'm free
All good things come to the one who waits
All good things come to the one who waits

Since I never had to fight
I lose easily
Since I never had to fight
I still believe

Patiently...that
All good things come to the one who waits
All good things come to the one who waits

All good things come to the one who waits
All good things come to the one who waits

If you ever would need someone
Then think of me
