

# My Kind of Crazy

## Brooks & Dunn

A hundred miles an hour, out on highway ten  
Top down, burning up the night again  
Ain't no one can catch you, girl, I'm gonna try  
I can see that dangerous look in your eyes You're my kind of crazy  
Full moon saying, you know what I like  
How about it baby  
Let's you and I go out and get crazy tonight I saw you at the drive-in, dancing on a car  
Rocking to the radio underneath the stars  
Living every moment like it was your last  
Don't know where you're going, you're just going fast You're my kind of crazy  
Full moon saying you know what I like  
How about it baby  
Let's you and I go out and get crazy tonight  
Let's get crazy tonight I ain't afraid of nothing when I'm out with you  
Running through the shadows, chasing down the moon  
Pushing to the limit isn't far enough  
Let's go off the edge and fall all the way in love You're my kind of crazy  
Full moon saying you know what I like  
How about it baby  
Let's you and I go out and get crazy tonight You're my kind of crazy  
Full moon saying you know what I like  
How about it baby  
Let's you and I go out and get crazy tonight You're my kind of crazy  
Full moon saying you know what I like  
How about it baby  
Let's you and I go out and get crazy tonight
