## **Bullshed**

## **The Apex Theory**

Rush out for long awaited offenders

Rush out for long awaited friends

We're not impressed with blinded herds

Nor with the way they dress

We're not impressed with blinded herds

Nor with the way they dressWe saw those animals ahead toughening their skin Scraped and bruised couldn't be good, woke to cleaner and fresher air

Resistance can't help the frightened ones

Run only when you are threatened

Much of which comes from childhood

And from being bluntRush out for long awaited offenders

Rush out for long awaited friends

We're not impressed with blinded herds

Nor with the way they dress

We're not impressed with blinded herds

Nor with the way they dressCasual instances of Random Bursts make for time's enemy

What is to lose? Only yourself and everything

Do you think I'm letting up?

Stray us from nationalism, our anthems respected

We feel strong, use its platform

Mark yourselves from cornerstonesRush out for long awaited offenders

Rush out for long awaited friends

We're not impressed with blinded herds

Nor with the way they dress

We're not impressed with blinded herds

Nor with the way they dressRush out for long awaited offenders

Rush out for long awaited friends

We're not impressed with blinded herds

Nor with the way they dress

We're not impressed with blinded herds

Nor with the way they dressWe're not impressed with blinded herds

Nor with the way they dress

Rush out for long awaited friends
