

# Hail to the King

## Sabaton

Once we lived in harmony, but it seems so distance now.  
Even though it wasn't long ago, were all doomed to  
Plague and death. Working hard from dawn til dusk. but  
That ain't enough for him Product of unholy love, untrue  
Brother of a king. Know that you'll fail, now hear us hail  
Your brother that you killed. Hail to the king that brought peace to us all. Rise from  
Your grave, hear our call. We'll not forget that you once  
Saved our land. Killed by your own brothers hand. Pure evil and cruelty, the true nature of your soul.  
Mercy and responsibility, words that you can't understand.  
Your quest for total control will only end in your own fall.  
We will fight for our freedom, and our right to live. Do it your way, soon you will pay  
Debts with your own blood. Stars so bright, dance in the night  
Day come soon, hide the moon  
Stars so bright dance in the night  
Day come soon, killing the moon Morning breaks it's time to march, to the castle of betrayal.  
Bring your sword, wield your Armour, we won't take this anymore.  
Kill the tyrant he must die, for his falseness and his crimes.  
Strike him down, and slay his guards, and his ministers as well. Done it your way, now you will pay  
Debts with your own blood. Hail to the king!
