

# Just a Matter of Time

## Randy Rogers Band

Saw you again last night  
I caught you catchin' my eye  
I love to stare at you Through the smoke and lights  
Well, I can see that I  
See that I just wanna hold you  
I just wanna know you  
I just wanna spend the night wrapped up in you But it's all, it's all  
Just a matter of time  
It's all, it's all  
Just a matter of time Don't care how long this takes  
'Cause baby, I can't wait, I can't wait for you  
To hold me, to know me  
I just wanna spend the night wrapped up in you But it's all, it's all  
Just a matter of time  
But it's all, it's all  
Just a matter of time You're gonna wake up and find  
It's just a matter of time  
Until, until you are mine 'Cause it's all, it's all  
Just a matter of time  
It's all, it's all  
Just a matter of time It's all, it's all  
Just a matter of time Saw you again last night
