

# Stay Awake

## Midline

I could fall in love with you  
But it's not my fault  
'Cause you are the prettiest thing I've seen  
When you're fallen asleep in my arms  
    Oh my, oh my, oh my  
    So just stay awake for me  
    'Cause I can't fall asleep  
    So just stay awake for me  
    I'll give you anything  
To just stay awake, make love to me  
    So maybe all you'll ever need  
    Is right inside these arms  
Whole and you're so damn tired and conditional  
As you're fallen asleep in the dark  
    Oh I, oh my, oh my  
    So just stay awake for me  
    'Cause I can't fall asleep  
    So just stay awake for me  
    I'll give you anything  
To just stay awake and make love to me  
    There's nothing I won't try  
    To keep your body close to mine  
    And baby, hold on tight  
    It's a wild open ride  
    Give me all you got tonight  
And stay awake with me, stay awake  
    Give it all you got  
    Just stay awake for me  
    'Cause I can't fall asleep  
    So just stay awake for me  
    I'll give you anything  
To just stay awake, make love to me  
Oh, just stay awake, make love to me  
    Make love to me  
    Make love to me  
    Make love to me
