

Special

Shamra

won't make this sound better
Than it really is
I'm very hard to read
Always leaving you in suspense
I feel something special
When we are together
I feel something special
When we are apart
For you this has to feel like
It's love in reverse
And I know that this is bad
But, at least it couldn't be any worse
I feel something special
When we are together
I feel something special
When we are apart
Do you say I'm special just to be nice?
And I want to think your right
Because I'd like to think that you wouldn't lie
I feel something special
When we are together
I feel something special
Let's not be apart
