

# Killing You

## Tech N9ne

I was born a beast  
You don't wanna meet  
I'm the worst, a lot of women see the demon in me  
Still they want a piece/ They want me chronally  
A lot of them really searchin for the seman in me  
I let em know at the front of a lust demon that wanna be bust kitty, be rubbin, I love many  
They trust me with the cunt, I thrust plenty, n jump in the next city, they wanted me, just kidding  
But I can never tell a lie, if you looked into my eyes, you can see that I'm a -  
Angel  
Demon  
Lookin for the love in every thigh, makin you wanna cry, spirit'll be  
Strangled  
Screamin  
That, I'm a serial killer, when it come to heart break  
Hate n the fury ya better cynic in the smarts makin  
Everything wrong, everything is gone, so why do you say you will for ever ding dong  
That just will make ya much meana  
Thats sum mistake ta love Ninna  
It sucks ta hate the one thing that makes ya come clean, then breaks n just leave ya  
I'm just a fucked up individual  
I love lust, n crushin ya for an interval  
Plus bust a guts up in a centerfold  
Eating the meeting up like its a dinner roll  
Ya should'a kept away like I told ya  
How can ya press to stay when I'm rove'a  
I think its safe ta say that my fates ta lay n I'mma waste when I'm olda  
So just step n gimmie the cold shoulda  
Cuz I'm a mess, the Ninnas the most vulga  
N I'm a threat, ya never get no close'a  
My kiss is killing you, wake up n its ov'aWhy can't you see me, for the animal I am?!  
I warned you!  
Exposed my beast inside, NEXT IF you are willing to (willing to, willing to, willing to)  
You took my invitation in. They all told ya never to take me in  
Why can't you wake up n see that I am killing you?! (killing you, killing you, killing you)I never knew why I  
had to be so cold  
Inside'a me so froze, its gatta be no soul  
Because whenever the lady want me in oath mode, I put on my ghost clothes, n get on a close road  
I'm tryin ta tell you that I'm sick in the insephalon  
I thought I could doit, but I guess I'm weak, n never bond

As long as I'm chasin the gold like a leprachaun  
My heart'll be covered in cold ice intephalon  
I'm sick wit'it  
I'm brick wit'it  
N9ne twist-ed it  
Ten times outta ten if you lookin for what it stems, I can guarantee that you gonn' find a bitch did it  
But I'm takin it back, I wont blame it on you  
Cuz I be the one that be gamin on you  
Famous, n heanous, the pain in you, cuz I'm blatantly playin n laying the crew  
I aint proud'a whut I turned into  
All my fire keeps burning through, burning you  
Up in the inside, I'm knowin the heat is concerning you  
I don't know whats gonna become of me  
All I can say is don't anyone love me  
Because I'm a monster, I'm sick n I want'cha  
But'chu better back up n when I COME SHOVE ME  
But then again I really really need you  
I want up inside'a you, I wanna bleed you  
Get the last drop then I'mma leave you  
Every last one'a you, yeah I'mma speed through  
Clever n every lady wanna see you/ Open up wide I wanna feed you  
Into the pit of evilness, I'mma lead you  
I'M ANIMAL, TECH WHUT I'M LIKE WHEN I LACE YOU! Why can't you see me, for the animal I am?!  
I warned you!  
Exposed my beast inside, yes dear you are willing to (willing to, willing to, willing to)  
You took my invitation in. They all told ya never to take me in  
Why can't you wake up n see that I am killing you?! (killing you, killing you, killing you)
