

C'Mon Baby

Junior Boys

I held you in a different light
and I dream of you again last night
C'mon baby You were real and you let me in
When I fell upon your lap you said
Well c'mon baby But a dream becomes a dream inside of me
C'mon baby See what you become instead
and I punish you in my head
C'mon baby I held you in a different light
And I dream of you again last night
C'mon baby
You were real and you let me in
When I fell upon your lap you said
Well c'mon baby
