Something Good This Way Comes

Jakob Dylan

Got my window open wide
I got my window open wide
Got a good woman by my side
Got a good woman by my sideNow this kind of day has no night
Yeah, this kind of day has no night
And I ain't got much on my mind
I ain't got much on my mind'Cause I know
Something good this way comesNow watching the streets filling up
Watching the streets filling up
In the shade of the summer sun
In the shade of the summer sunGot sweet apple pie on the stove
Got sweet apple pie on the stove
The birds they're all flyin' low
The birds they're all flyin' low'Cause they know
Something good this way comes
Yeah, something good this way comesThe trouble doll, is not moving mountains
But digging the ground that you're on
If it's true that good fortune gives no change
We got just what it takesCollar up on my coat
Yeah, collar up on my coat
Trucks are pullin' in for the show
Trucks are pullin' in for the showGrasshopper jump in the road
Grasshopper jump in the road
Kids, they're all running home
The kids they're all running home'Cause they know
Something good this way comes
Yeah, something good this way comesThe trouble doll, is not moving mountains
But digging the ground that you're on
If it's true that good fortune gives no change
We got just what it takesI got my window open wide
I got my window open wide
I got a good woman by my side
I got a good woman by my side'Cause I know
Something good this way comes
Yeah, something good this way comes
Yeah, something good this way comes
