It's Good To Be Us

Bucky Covington

Go!
Well baby, there ain't no maybe about it
I ain't made of money so I know
That you ain't hangin' 'round for that if it grew on trees
The branches on mine wouldn't have no leaves
On a shoe-string, saving every dime we made
No Cadillac cruising, no boat on a lake
Out in no-man's land on an old two-lane
Yeah, but we like it that way
It's good to be us, good to be breathing
Day after night after day this feeling
Feels the way it should
If this is as good as it gets, then good
It's good to be us
Aw, give me this air and give me this land
When I lay down at night, girl, give me your hand
I can take any hurt this world has to give
As long as I got you, as long as I live
I'll make your life as sweet as I can
I'll move every mountain to be that man
That gives you space and a place to land

You wake up smiling, knowing that
It's good to be us, good to be breathing
Day after night after day this feeling
Feels the way it should
If this is as good as it gets, then good
It's better than best, yeah, we got it made
In the shade, in the sun, in love this way, yeah
We got lucky, baby, we've been blessed
Couldn't ask for more, wouldn't settle for less
It's good to be us, yeah, it's good to be us
It's good to be us, good to be breathing
Day after night after day this feeling
Feels the way it should
If this is as good as it gets, then good
It's better than best, yeah, we got it made
In the shade, in the sun, in love this way, yeah
We got lucky, baby, we've been blessed

Couldn't ask for more, wouldn't settle for less
It's good to be us, yeah, it's good to be us
Baby, it's good to be us, so good to be us
