

# Different Light

Doug Stone

Brand new goo goo goo dolls  
See me in a different light  
I think it'll be okay  
Why are you so blind that you  
Can only see today  
See me in a different space  
That you'd expect to see  
Then maybe you be taken in by(?)  
Ever so close to me(?)  
See me with a different face  
That I've had in my past

Criticize the other jerks  
Who make this madness last  
See me in a different light (You're so blind)  
See me in a different light (You're so blind)  
See me in a different light (You're so blind)  
See me in a different light (You're so blind)  
See me in a different light (You're so blind)  
See me in a different light (You're so blind)  
See me in a different light (You're so blind)
