Asphalt Risin'

Fu Manchu

I've got a full board on a frame in the yard
I've got a half grown and I ain't goin' far
With a Hurst shift, gettin' me into four
And a hand full I'll be needin' moreOf a super sea, a super sea
A super sea is what I need
A super sea, a super sea
A super sea is what I needI straight off the line, I'm better every time
I pulled a left lane, I supercharged it fine
I took a fourth try to a star at right
I pushed a button for a ride into the skyWith a super sea, a super sea
A super sea is what I need
A super sea, a super sea
A super sea is what I needI've got a full board on a frame in the yard
Ive got a half grown, and I ain't going far
With a Hurst shift, gettin' me into four
And a hand full I'll be needin' more
