

# So Good (West End Radio 7")

## Eternal

Could be good  
Could be good  
Could be good  
Ooh  
Could be good Ooh your love baby  
Is so sweet and good to me, yeah  
I can give you all my time  
If you say that you'll be mine  
When your arms are around me  
And you're holding me so tight  
My life is nothing without you  
I can't do without you If there's a place in your heart we could share  
We could both be there together  
'Coz you give me so much joy  
I'm not sure if it's bad for just me and you Could be good  
So good if we could come together  
Could be good  
So good if we could last forever  
Could be so good, so good together Oh tell me baby  
Can I hold you close tonight  
Movin' nearer, hold me tight  
'Coz you make me feel so right  
You know our love gives me peace of mind  
'Coz you're so divine, a special love  
'Coz you give me so much joy  
I'm not sure if it's bad for just me and you Could be good  
So good if we could come together  
Could be good  
So good if we could last forever  
Could be so good, so good together  
So good if we could come together Hold tight get it right  
We can do it  
Hold tight get it right  
We can do it  
Hold tight get it right  
We can do it  
Hold tight get it right  
We can do it Could be good  
Could be good

Could be good If there's a place in your heart we could share  
We could both be there together  
'Coz you give me so much joy  
I'm not sure if it's bad for just me and you Could be good  
So good if we could come together  
Could be good  
So good if we could last forever  
Could be so good  
So good together Could be good  
So good if we could come together  
Could be good  
So good if we could last forever  
Could be good  
So good if we could come together So good, so good oh baby  
So good, my darling, so good  
So good, so good oh baby  
So good, so good, so good  
So good
