

# Blueberry Pancakes

**Lewis Black**

I leave you with an article from the paper  
that I believe it will lighten the load that I dumped on you this evening  
I think, when you're thinking about all these problems  
I can't sing I can't dance, but boy I can read  
and this is as good as it gets  
the first sentence  
it truly is the greatest piece of journalism ever written anywhere  
anytime, and I'm guaranteeing that  
A woman almost bit off her husband's penis  
as he was preparing pancakes for breakfast we are all feeling a little better now aren't we  
could the picture be any clearer the young man wakes up  
the young woman still sleeping  
so I never do shit around here  
I'm gonna change that  
she deserves better than what I do  
I'm gonna go make her pancakes
