Oh when I think of you I can't see you like
All the other girls
I knew that I didn't treat rightBut then there are times when I just
Need what I need, babe
And I know you can give it all to me
So how aboutWe don't have to go all the way, no
But if you want
I still take you there, hey, heyHey baby, how about it
We don't have to go all the way no
But girl, I'm sure you still
Can get me there
Hey, yeah, oh, hey, hey, heyOh, if only you knew what I'm willing to do
For, for a fair exchange baby from me to you
But I know, I know you've got your own reasons
For making me wait and I know
I know there's a way that we can free ourselvesWe don't have to go all the way, no
But if you want
I still take you there, hey, heySo baby, how about it
We don't have to go all the way no
But girl, I'm sure you still
Can get me there
Hey, yeah, oh, hey, heyIt's alright you can admit that you want it
It as bad as I, it's so natural
We all have our days and our sleepless nights
When we wanna get some and I wanna get someIt's alright you can admit that you want it
It as bad as I, it's so natural
We all have our days and our sleepless nights
When we wanna get some and I wanna get some
