

Unfit to Live

Living Sacrifice

Product of some enlightenment
Cheapening a life once lived
The feeble and degenerate
Deemed unworthy living burdens
Social engineering
Genetic playground of the elite
Rationalize, these thoughts and processes
Sterilize, conclude who can live and die
Selective breeding, racial hygiene
The extreme survival of social Darwin
Social engineering
Genetic playground of the elite
Who decides who lives and dies?
What is the cost of life?
The intellect of a mini-God
Selective breeding, racial hygiene
No compassion in this process
Only pseudo scientific notions
Who decides who lives and dies?
What is the cost of life?
Who decides who lives and dies?
