

# Never Will I Break

## 3 Doors Down

Lay me down, wash this blood off of my hands for me  
While I cry out  
Don't let me die before I go to sleep  
I can't keep going but I cannot start again  
This road I walk is paved with the broken  
Promises I made  
At least a million times I've fallen  
But never will I break  
These walls I make they hold me in and hold me back today  
Oh but tomorrow's new  
Then I walk right out and walk right over you  
If you hear me screamin', please don't let me fall again  
This road I walk is paved with the broken  
Promises I made  
At least a million times I've fallen  
But never will I break  
My time is on it's way  
I'll fall but I won't break  
This road I walk is paved with the broken  
Promises I made  
At least a million times I've fallen  
But never will I break  
This road I walk is paved with the broken  
Promises I made  
At least a million times I've fallen  
But never will I break
