

# Don't Bother Me

## Blakes, The

Don't come 'round here looking for my sympathy  
Don't come 'round here looking for my prayers  
You spent the eighties in a trance  
Yeah you led us all on a merry dance  
Now it's sad to say that I don't care  
You were always advocating power games  
You were always gonna be a star  
You made your money, had your fun  
Made a video 'bout how it's done  
Ain't put it in my vcr  
So far  
Dreams fall into disrepair  
There's a change in the air  
Your lies  
Will lead you to despair  
Don't bother me  
(castles in the sand slip through your hand)  
Don't bother me - I don't give a damn  
Don't bother me  
(try to understand it's in your hand)  
Don't bother me

Well no amount of liquor, babe, can drown the blues today  
No amount of pills can ease the pain  
When the body electric and the vision thing  
Is all it takes to make the people sing  
Let's hope we don't get fooled again  
My friend  
Dreams fall into disrepair  
There's a change in the air  
There's a girl who says she cares  
And her love  
Will leave you standing there  
Don't bother me  
(I can't change your mind when you're so blind)  
Don't bother me - I can't spare the time  
Don't bother me  
(takes an ocean wide to turn tide)  
Don't bother me - love can't be denied

Don't bother me  
(castles in the sand slip through your hand)  
Don't bother me - I don't give a damn  
Don't bother me
