Eggs

Zach Deputy

What shall we do with his brain? You put it back, for it isn't the same What shall we do with his brain?

Eggs

do you think so?

oh....

What did you do with his brain?
What did you do to his brain?
Well he used to not be farmer shoes clean

Oh.....

do you think so?

oh.....

oh no

oh no

hey what did you do to his brain what should you do to his brain oh once somebody tried to help me but it turned out wrong and now now it's gone to hell and down now he's trying to look inside me what should you do with his brain what did you do to his brain
