Dreaming

Zyce

It?s a new day Something feels strange I?m walking in the clouds I'm almost touching the stars Anything is possible, imaginable Am I dreaming? All normal things start to change Can feel no gravity I step outside the atmosphere Nothing seems impossible, unreachable How strange it feels Moving in slow motion I guess I must be dreaming Now, is this real Or my imagination? I guess I must be dreaming Dreaming, dreaming, dreaming? I guess I must be dreaming Dreaming, dreaming, dreaming? I take a leap I should be scared, but I'm not

Travelling in the speed of light Planets are flashing by Like a shooting star I fly How strange it feels Moving in slow motion I guess I must be dreaming Now, is this real Or my imagination? I guess I must be dreaming Dreaming, dreaming, dreaming? I guess I must be dreaming Dreaming, dreaming, dreaming? This is just a dream This is just a dream How strange it feels Moving in slow motion I guess I must be dreaming

No, is this real
Or my imagination?
I guess I must be dreaming
Dreaming, dreaming, dreaming?
I guess I must be dreaming
Dreaming, dreaming, dreaming?
