

# Don't Say a Word

## Flora Purim

1. Don't say a word darling tonight  
I for ready herded noth  
Well be no more conversation  
But to tries intravilations  
If the word out side  
Now that try near, holding me tide  
Suddenly it's clear to me  
This is absolute profection  
Just to trine in the reflaction of my lover's eyes.

2. There so much time in the day for chatter  
That doesn't matter any more  
For silent clear we are breaking free  
As we're begin to fall right in to love  
Tune after light love is sweet discovery  
When you kiss me in the quiet  
Better harry dear in try it  
But don't say a word
