Rock This Place

General Midi

Well, I was sitting in my room playing on my old guitar
Thinking about you, baby acting like a movie star
When the telephone rang
They said you're at the local barSo I jumped and ran as fast as a man can run
Don't know where but the night was made for fun
'Cause if I ever loved a woman, baby
You're the only oneSo, let's rock this place
Let's rock this place
Let's rock this place
Till everybody says it's alrightLet's rock this place, let's rock this place
I want a whole lot of gimme, gimme
'Til the whole room shakes and shimmies
Let's rock this place, rock this place tonightWhen I saw you in the corner
I knew you was waiting for me
Well, you had the look about you
You surely make a blind man seeAnd if you froze a million dollars
You'd give it to me all for freeSo, let's rock this place
Let's rock this place
Let's rock this place
Till everybody says it's alrightCome on let's rock this place
Let's rock this place
I want a whole lot of gimme, gimme
Till the whole room shakes and shimmiesLet's rock this place
Rock this place tonightCome on let's rock this place
Let's rock this place
Let's rock this place
If everybody says it's alrightLet's rock this place
Let's rock this place
I want a whole lot of gimme, gimme
Till the whole room shakes and shimmiesLet's rock this place
Rock this place tonight
Yeah, let's rock this place
Rock this place tonight
