

# Love You for a Day

[Ricky Martin](#)

Que ser oh que ser  
The future will be will be with us I've seen the headlines in the paper  
They say the end is coming soon  
I want to make love till it's over  
If I'm goin' down it'll be with you Let me love you for a day  
Let me love you for a night  
Let me take you far away  
Into forever  
Aye aye aye  
I don't want to let you go  
Nena yo  
Let me undress your soul  
Aye aye aye  
I can take you to another world  
Never go  
Let me take you home tonight Que ser oh que ser  
As the countdown's getting closer  
There is madness in the air  
I want to be under the covers  
Baby, in your arms without a care  
Let me love you for a day Que ser oh que ser  
The future will be, will be with us  
Let me love you for a day
